About Brookfield Properties & The Gas Company Tower

Brookfield Properties is a fully-integrated, global real estate services company that provides industry-leading portfolio management and development capabilities across the real estate investment strategies of Brookfield Asset Management — a global alternative asset manager with over \$500 billion in assets under management.

We develop and manage premier real estate with a focus on maximizing the tenant experience in addition to the investment and operational performance of the asset. We also integrate leading-edge real estate technologies which enables us to be at the forefront of innovation and sustainability — benefiting not only our tenants, residents and business partners, but also the communities in which we operate.

The Gas Company Tower is located in the prestigious Bunker Hill District. The Gas Company Tower is an award-winning, Class A architectural landmark in the iconic Los Angeles skyline. With its glass fins at street level and “boat” shape in the upper bank, the 52-story glass line stands out as a beacon of modernism among the neighboring historic buildings.

Designed by Skidmore, Owings, & Merrill and completed in 1991, the building features 1.4 million square feet of office space, the highest quality institutional finishes, and the most efficient floor plan in the market. The Gas Company Tower’s stepped and tapered silhouette emphasizes its towering height, culminating in an elliptical crown on the top. A dramatic entry porch provides access to a retail corridor and escalators leading directly to the main lobby.

Painted on the adjacent AT&T building and spanning 300 feet, Frank Stella’s mural, *Dusk*, is one of the world's largest abstract murals. The mural was commissioned for The Gas Company Tower and can be seen from Pershing Square, downtown streets and through the lobby and office windows of The Gas Company Tower.

Security Overview

Security Officers are on duty 24-hours a day, seven days a week. The Building also utilizes closed circuit surveillance cameras throughout the building as well as two-way radio communication. While security officers, closed circuit cameras and the maintenance staff can provide basic protection for the Building, security is everyone's responsibility and your cooperation and vigilance is essential.

The building utilizes [LiveSafe](#) – a mobile app that allows tenants to directly report suspicious activity & security concerns to the Security team.

Additionally, [Building Safety Solutions Guardian](#) is available as an online emergency preparedness training resource for all building occupants.

Each tenant can be effective in preventing the loss of valuable personal and company property by careful observance of procedures such as:

- Be particularly observant of strangers in your area and if their identity cannot be readily established, advise the Building Management Office immediately. Our ability to take positive action may be wholly dependent on speedy notification.
- Establish and use, within the occupied premises, a secured area for packages, purses, salable and transportable property, etc., and particularly any form of a negotiable instrument or petty cash. We recommend a GSA approved fire safe.
- At the end of each working day, store small personal and company items of value in a locked desk, credenza, file cabinet or other secured location.
- Personal computers and large calculators should be bolted to the desk. Particular care should be taken for the security of lap top computers and tablets; they are easily transported and readily marketable.
- File cabinet drawers should be closed at the end of the working day and all file cabinets that are provided with locks should be secured nightly.
- Be certain that all public corridor egress doors are locked at the conclusion of standard business hours on each business day and when your receptionist leaves the premises.
- Enforce strict control of keys and access cards. Please notify the Building Management Office when any employees are terminated.
- Promptly report the loss of property or any suspicious event to Security. Serial numbers of all valuable items should be recorded and retained in a file to aid police in recovering property in the event of a loss or theft.
- Articles of value (handbags and coats) should not be left in open, unattended reception areas or on desks in offices at any time.

Tenant Security Services

Tenants may require security services in addition to those typically provided on a day-to-day basis by the property's security personnel. If extra security measures are required, the tenant should call the Management Office at 213.622.8700 to discuss these needs and the best way to fulfill them.

Emergency Procedures: Emergency Notification System - LiveSafe

[LiveSafe](#) is a mobile safety application and emergency communication dashboard platform. The LiveSafe Command Dashboard is a web-based system that any computer connected to the Internet can access. The command dashboard provides security operation centers with an additional line of communication and is aligned with existing Brookfield Properties' protocols.

Unlike other mass communication companies our staff and tenants will have the ability to not only receive but to also send critical emergency AND ROUTINE tips to a dashboard that YOUR BUILDINGS can monitor in house. Below is a list of LiveSafe mobile application features that will be available to our tenants:

- One button feature to contact security or property management directly.
- One button feature to contact 911.
- One button feature to have access to critical portions of the Tenant Emergency Procedure Manual (TEPM) and tabs for each emergency scenario.
- The ability to report an emergency or tip and add a photo or video to send to the dashboard. This can also be done anonymously for privacy reasons.
- The ability to use the Safewalk feature which will allow the tenant to have a colleague or co-worker monitor their activity when they are leaving the property, headed to the garage, to the train station or travelling out of town.

As long as their colleague has the LiveSafe app, Safewalk can be used in any capacity that a tenant wants a colleague to follow their path.

Access Control

We strive to provide a safe environment for tenants and their employees, guests, customers, and visitors. For this reason, access to the Building is restricted. The Gas Company Tower is open to tenants at all times, however, Management may limit public access at certain hours. Building doors are open during the times listed in the Hours of Operation section.

Outside of these times only tenant employees using The Gas Company Tower security access cards/badges, or visitors, vendors, and customers who are sponsored by tenants, may be admitted to tenant areas. All visitors without proper after-hours authorization are referred to Property Security at all other times.

Vendor/Contractor Access

There may be special instances when vendors or contractors need to perform work in your suite during non-business hours. In such instances, please provide written notification to the Property Management Office on the After-hours Access Form including:

- The Company
- Name Foreman or supervisor
- Names of all people who will be doing the work
- Date(s) the work will be performed
- Time the contractor will arrive and depart
- Description of the work being done

Please note that property staff will not admit your contractor into your suite. Please make arrangements to meet the vendor or provide them with keys.

Handicap Accessibility

Handicap accessible entrances provide easy access to and from The Gas Company Tower. Handicap entrances and egresses are available at the following locations:

- 5th Street and Grand Avenue
- P-1 level of parking structure

Property Removal/Stolen Property

To prevent unauthorized removal of material or equipment from the Building, the “Property Removal Authorization” form, which can be obtained by contacting the Property Management Office, must be completed by an authorized tenant representative and be retained by the individual authorized to remove the material. Security personnel will request this form when an individual is removing materials or equipment from the building after normal business hours.

If property belonging to a tenant, employee or visitor is stolen, notify the Police Department and the Management Office immediately (after normal business hours, calls to the Management Office will be automatically forwarded to Security). A security officer will respond as quickly as possible to take an incident report and will assist the Police Department.

Lost and Found

Lost and found items can be claimed or turned in at the Security Desk in the main lobby or the Building Management Office located on the 7th floor in Suite 750.
